

To

His Highness Maharajadhiraj Shri Maharawalji
SIR JAWAHIR SINGHJI SAHIB BAHADUR,
K.C.S.I.,
OF JAISALMER.

Dated Jaisalmer, the 21st September 1921.

May it Please Your Highness,

I beg most respectfully to submit the Annual Administration Report of Your Highness' State, for the year ending the 31st October 1920.

I beg to remain.

Your Highness' most humble and obedient servant,

M. R. SAPAT.

Dewan, Jaisalmer State.

Report on the Administration of the Jaisalmer State for the year 1919-20.

CHAPTER I.

1. The State of Jaisalmer covers an area of 16,062 square miles. Its population, according to the Census of 1911, is 88,311, and its gross revenue, based on the average of last five years, is Rs. 35,713 Akheshahi and Rs 259,507 Kaldar. It has not to pay any tribute either to the Imperial Government or to any Native State.

General and
Political.

2. The Rulers of Jaisalmer are descended from the ancient Yadu Kings of the Lunar race. The most illustrious Ruler of the line was the deified hero, Shri Krishna, who ruled at Dwarka and who was one of the greatest rulers, statesmen, generals, scholars, thinkers and philosophers that India has ever seen. One of the most venerable and prized heirlooms of the House of Jaisalmer is the "Meghadambar" (an umbrella which, according to tradition, Shri Krishan used on occasions of State) and the Ruler of Jaisalmer is hence styled "CHHATRALA YADAVA PATI", the canopied Lord of the Yadavas. The eight-metal umbrella, which surmounts the Jaisalmer Palace towering high above the venerable walls of the historic hill-fort, is emblematic of the "Meghadambar" and is indicative of the proud position which the House of Jaisalmer occupies as the Head of the Lunar race and its off-shoots.

3 The valour, which the Bhati Princes of old displayed in repelling the successive waves of Mohamedan invasions, earned for them and their decedents, the proud title of. 'UTTAR BHAR KINWAR BHATI' i. e., Bhaties, the mighty portals of the North (of India).

4. Jaisalmer is connected by marriage with Udaipur, Jodhpur, Bundi Bikaner, Kotah, Kishangarh, Sirohi, and Dhrangadra.

5. His Highness Maharaja Dhiraja Shri Maharawalji Sir Jawahir Singhji Bahadur, K. C. S. I., the present Ruler of the State, succeeded to the Gaddi in 1914. His Highness' heir apparent, Maharaj Kumar Shri Girdhar Singhji Sahib, by Maharaniji Sri Sodhiji Sahiba, has completed his 13th year. He prosecuted his studies in Jaisalmer during the year under report. The other Maharaniji is Amarkotiji Shri Sujan Kunwarji Sahiba.

6. His Highness was married on the 24th of November 1919, to Kalyan Kunwarji Sahiba, a daughter of the Ruling House of Bundi.

7. The nearest relatives of the Ruling family are called Rajwis. Their names are given below:-

- (1) Thakuran Raj Sri Gopal Singhji Sahib, son of Jaswant Singhji of Dudhu, born on the 19th November 1901.
- (2) Thakuran Raj Sri Salam Singhji Sahib, son of Umaid Singhji of Dudhoo born in 1853. His son Kunwar Narain Singhji, was born on the 3rd June 1898.
- (3) Thakuran Raj Shri Sheodan Singhji Sahib, of Lachhmana, who was born in 1857, retired from State Service in 1909.
- (4) Thakuran Raj Shri Sultan Singhji Sahib, adopted son of Keshri Singhji of Nachna, was born on the 14th May 1887. He has a son, Kunwar Gordhan Singhji born on 27th September 1909.

8. Those relatives that, owing to their lineage or owing to their adoption, are comparatively remote in relationship, are called Rawlots. These Thikanas, according to the order of their precedence, are as under:-

Tota, Sato, Bhadria, Lathi, Loharki, Uwai, Ola, Kanod and Pithal (for details of paras seven and eight vide Appendix A.)

Visit to Bundi.

9. Owing to the celebration of His Highness' marriage in Bundi, in the cold season he could not attend the Conference of Ruling Princes, during the year under review.

Tour.

10. His Highness' accompanied by his Dewan, toured through some of the Paragnas in the State.

Changes in the
Administrative
Machinery or
Personnel.

11. There was no important change in the personnel or administrative machinery of the State.

CHAPTER II.

Administration of
Land.

12. Land Revenue is, as a rule, taken in kind. The system of payment in kind, instead of in cash, is better suited to the existing local conditions and affords automatic relief to cultivators in years of deficient rainfall.

13. The rates of assessment—one-sixth of the out-turn of Kharif and one-fifth of that of Rabi crops—are low, and the ryots find no difficulty in paying the State dues.

14. The yield was estimated last year at four and six annas in the rupee for the Rabi and Kharif crops, the actual out-turn of the former crop was less by one anna and that of the latter was upto the estimate.

15. The estimates for the next financial year are one and five annas for the Rabi and Kharif crops respectively.

CHAPTER III.

Protection &
Legislation.

16. The Laws in Jaisalmer are not codified. The local usages and customary laws are generally followed and, in cases wherein they do not differ from the laws in force in British India, due regard is paid to the principles of the latter.

Military & Police.

17. As the military are often required to do the duties of the police and the police of the military, and as they have also to perform other civil duties, when necessary, it is hardly practicable to draw a distinct line of demarcation between the two, and no attempt has therefore, been made to fill in Appendices III and IV.

18. The State troops in the town guard the records, treasury, the Darbar Bhandars, the Jail, the citadel gates, etc., etc., and they also do police and other civil works. In the Hakumats also they do combined duties. Both the military and the police are armed with smooth bore guns and swords.

19. The total strength of the State troops (Police and Military) was 392 against 384 in the preceding year. Such of the men as were utilized for dacoity suppression, formed a separate Mehkma called Girai. The rest worked in different Hakumats, the cost, therefore, has been distributed under heads Military and Hakumats.

20. A reference to Appendix VII will go to show that comparatively such petty crimes as hurt, mischief, trespass, accounted for no less than 195 out of a total of 342 offence reported to have been committed during the year. There were 29 cases of mis-appropriation of property, 75 of theft mostly cattle lifting. There was not a single case of robbery during the year under review. There was, however, one case of dacoity in the Border Hakumat of Fatehgarh, which was committed by Marwar people. The value of the property reported to have been stolen as well as recovered was nearly half of what it was in the preceding year.

21. The following table gives the number of the Criminal Courts in the Jaisalmer State:—

Hakumat Courts	16	Criminal Courts.
Sadar Adalat	1	
Mehkma Khas	1	
Total				18	

22. The Hakims in the District or Hakumat Courts commit cases beyond their power to the Sadar Adalat and the latter to the Mehkma Khas.

23. The number of criminal cases filed during the year was 342, which, with a balance of 394 pending from 1918-19, gave a total of 736 against 667 in the previous year) The number of cases disposed of was 295 against 253 in the preceding year, and the closing balance was 441. Criminal Cases.

24. The number of persons involved in these cases and the number remaining to be tried at the close of the year was greater by 66 and 40 respectively than what it was in the preceding year.

25. Appeals from the Hakumat Court lie to the Sadar Adalat and those from the latter tribunal to the Mehkma Khas. Appellate Court.

26. The total number of appeals in the criminal cases that came upto the Appellate Courts of the State was 39, of which 32 were preferred to the Mehkma Khas and 7 in the Sadar Adalat Appeals in Criminal Cases.

27. The number disposed of by the Mehkma Khas and the Sadar Adalat was 28 and 3 respectively.

28. The number of cases remaining at the end of the year in the Mehkma Khas and the Sadar Adalat was 4 and 4 against nil and 1 respectively, in the past year.

29. Out of the 28 cases decided by the Mehkma Khas, the orders of the Lower Courts were confirmed in 12 and modified in 14. In one case the proceedings were quashed, and one was sent back for further enquiries.

30. In the 3 cases disposed of by the Sadar Adalat, the decisions of the Lower Courts were confirmed in 1 and in 2 cases the proceedings were quashed.

31. There are in all 18 Civil Courts in the State:—

District or Hakumat Courts	16	Civil Justice.
Sadar Adalat	1	Civil Courts
Mehkma Khas	1	
Total				18	

32. Appeals from the Hakumat Courts lie to the Sadar Adalat (which also hears original cases up to any value) and those from the latter court to the Mehkma Khas, which is thus the highest judicial tribunal in the State, and exercises full powers of revision and control over all the subordinate Courts.

Original Civil
Suits.

33. The total number of Civil Suits that came up for disposal by the various tribunals of the State was 514 (217 instituted during the year and 297 balance from 1918-19) against 485 and the number disposed of was 176 against 188 in the previous year.

34. Out of the total of 217 Civil Suits instituted during the year, there were no less than 204 for money transactions and of the remaining 13, there were 3 for landed property and 10 for other rights.

35. The average duration of each contested suit in the Adalat was shorter by nearly 2 months than what it was in the preceding year, while in the Hakumat Courts it was longer by nearly 3 months.

Application for
Execution of
Decrees.

36. The number of fresh applications for execution of decrees, which were brought to the register during the course of the year under review, was 103 which with the balance of 410, gave a total of 513 (against 493 in 1918-19) for disposal, out of which 112 were executed against 83 in the preceding year.

Appeals in Civil
Suits.

37. The total number of appeals in Civil Suits in the Mehkma Khas, including those pending from the previous year was 50 against 62 in 1918-19. The number disposed of was 34, and the balance of cases which remained pending was 16 against 32 in 1918-19. Out of the 34 appeals disposed of by the Mehkma Khas, orders of the Lower Courts were confirmed in 12, amended in 12, and reversed in 5. Five cases were compromised or otherwise disposed of.

38. The total number of appeals in Sadar Adalat was 9. The number disposed of was 6 and the closing balance was 3, against 2 in 1918-19. The orders of the Lower Courts were upheld in 2, modified in 1 and 2 cases were remanded for retrial.

39. The average duration of each case in appeal was 12.26 and 3.23 in the Mehkma Khas and Sadar Adalat respectively.

Extradition.

40. The State has an Extradition Treaty with the British Government and an understanding on the subject with Marwar and Bikaner.

41. During the year under review, no person was extradited by or to the British Government or Bikaner. The number of persons extradited by Marwar to Jaisalmer was 6, while no person was extradited by the latter to the former State.

Jail.

42. There is one Jail at the Capital, and there are 15 Lock-ups at the headquarters of Hakumats.

43. There are separate quarters for male and female prisoners in the Central Jail. It was under the supervision of the Superintendent, Sadar Adalat, and the sanitary arrangements were looked after by the Sub-Assistant Surgeon in-charge of the Darbar Dispensary. The conduct of the prisoners was generally good, and the sanitary arrangements were satisfactory.

44. On the date of the commencement, of the administrative year, the number of prisoners in the Jail was 23 which, with, 34 fresh admissions during the year, made a total of 57 inmates. The average daily strength was 24.16 against 19.77 in the previous year.

45. 26 prisoners were discharged on the expirys of their sentences. One was released on the occasion of the anniversary of the birthday of His Highness and 4 on the occasion of Peace Celeberation. The number remaining at the end of the year was 26.

46. The total expenditure incurred under this head was Rs. 3,237/- against Rs. 3,657/- in the preceding year.

47 The average period of the accused under trial was 30.29.

48. Registration is not compulsory in Jaisalmer except on sales of immovable property During the year under report 13 documents were registered against 5 in 1918-19.

Registration.

49. There are no Municipal Committee or Corporations in the State. The sanitary arrangements are looked after by the local Officials.

Sanitary arrange-
ment.

50 There was sufficient supply of water in Gadsisar and the villas adjoining it. Suitable arrangements were made to see that drinking water was not contaminated.

CHAPTER IV.

51. No perennial streams run in Jaisalmer, and wells, as a rule, are too deep to be utilised economically for irrigational purposes. The yield, therefore, depends entirely upon seasonal rains, *i. e.* on a factor which is beyond administrative control, which is freakish in its character and erratic in its course, which remains an uncertain, an unknown and an unknowable quantity almost up to the end of the financial year, and which, not infrequently rudely upsets such calculations as might have been based on an assumption of its reliability. Deficiency of rains is almost a normal condition and its failure implies simply a difference in degree. The habits, the pursuits the avocations, the customs, the traditions and the breeding of the bulk of the people, are such as may be calculated to obviate the possibility of deficiency or failure of rains resulting in any general or widespread distress.

Pecarious character
of seasonal rains
on which depends
the local yield.

52. The recuperative power of the State and its people, that have lived for centuries past, and from the very dawn of authentic history, under such abnormal conditions, is enormous One is seldom likely to find such an economic, physical, moral and mental adjustment to the surroundings as is to be seen in Jaisalmer. This adjustment is a result of long standing struggle against Nature, in which man has come out top. It testifies to the success with he can adapt himself to his surroundings. It acts as a palliative, and modifies, almost nullifies, the effects of deficiency or failure of rains, which, in other parts, where the popular life is not so well adjusted and the popular mind not so well attuned, would result in serious and wide-spread distress.

Recuperative power
and adjustment to
surroundings.

53. Local production is, because of the precarious character of the monsoon and absence of other irrigational means, never a dependable quantity and even in the best of years it meets only a fraction of the local demand.

Economic
adjustment.

Local demand and
how it is met.

54 The markets which supply more than three-fourths of the local demand, are those of Sindh and the Punjab; for local production, even in a fairly good year, seldom exceeds 1,00,000 maunds. The average for the past ten years works out at 71,247 maunds. Deficiency is made good by the stock in hand and by import.

Factors which go
to determine the
prices of food grains.

55 The prices of food-grains vary, as a rule, with those obtaining in the aforesaid markets. The other factors which affect the prices, are sufficiency or otherwise of local rains, the consequent increase or decrease in local production, and the enhancement, in good years, owing to larger influx, or reduction, in bad years, through greater exodus, in the local demand.

Mode of life, habits,
pursuits, physical
and mental adjust-
ment.

56. The bulk of the people depends for its subsistence on the rearing of cattle. These are tribes who live throughout the year in the open and who could go, even without water, for days together. Their life is simple, and their wants are few. Their luxuries are confined to a quid of tobacco, occasional pulls from the ubiquitous Hukka and a friendly and fraternizing exchange of opium. A song or a dance, to the accompaniment of a drum or flute, constitutes the height of their enjoyment. They are rude; they are rough and ready; but they are hospitable. They are kind at heart and one who has had occasion to live with them, feels that their mode of life is not altogether without its amenities.

Migration.

57. The wealth of the people, in general, who live a semi-nomadic life, and move about with their cattle from place to place, consists of sheep, goats, camels and milch cattle. Besides, therefore, the natural forces of birth and death, migration is the principal factor which, more than anything else, contributes to the growth or to the diminution of population, and the gain by influx, or the loss by exodus varies with the sufficiency or otherwise of seasonal rains. Scarcity or famine (terms which could not have the same significance here as is attached to them in more favoured parts) is hardly a factor which might be calculated to accelerate death and thereby cause a permanent reduction in the population of the State. A large proportion of the people at the first signs of the failure of rains emigrates with their live-stock and herds of cattle, to the adjoining province of Sindh and to Bahawalpur, where they can find pasturage for their animals and where a great demand for labour exists. This migration on a smaller or larger scale, according as the rains have been good or bad, is in fact, almost an annual event. Even in comparatively good years, as soon as the rains are over and harvests gathered in, a proportion of the people emigrates mostly to Sind and Bahawalpur to supplement their earnings. They, however, return to their homes in Jaisalmer with money in their pockets and with, in several instances, increased in the members of their family due to births, when the rainy season asserts itself. It is a reciprocal arrangement with the adjoining portions of Sindh and Bahawalpur, for the pastoral tribes of those places live partly there and pass a portion of the year in Jaisalmer. Migration, therefore, is a necessary condition of life. It serves an economic purpose. In years of deficient rainfall it reduces the local demand and thereby eases down the prices. In years of failure of rains, it reduces the possibility of starvation to a minimum. It gives greater staying power.

It supplements local earnings. It saves cattle which, as said above, constitutes the wealth of the people in general. It is one of the most important factors which act as palliatives and which go to adjust local life to local conditions.

Rainfall and Yield.

58. The administrative and the financial year of the State commences on the 1st November and ends on the 31st October, and as the Kharif harvest is usually gathered in by the end of November and the Rabi sowings commence, as a rule, in that month, the out-turn of any given year depends on the rainfall of the preceding year.

59. The seasonal rains in 1918-19, on which depended the out-turn of the year under review, were fairly good. The average for the State was 4.85 inches and the Rabi and Kharif out-turns were estimated at 4 and 6 annas in the rupee respectively.

Rains during 1918-19 on which depended the yield of the year under review.

60. The rainfall in the year 1919-20 was nearly the same as that of the preceding year. The average for the State worked out at 4.84 inches but as the rains were not so well distributed, the Rabi and Kharif crops for the next financial year are estimated at 1 and 5 annas in the rupee respectively.

Rains during the year under review and estimate of the next year's yield.

61. The total approximate yield of cereals in 1919-20 was 69,836 mds. against 4,576 mds. in the preceding year. It was greater by 5,789 mds., than the average for the last ten years. Yield in Jaisalmer is, as has been said above, almost entirely dependant on seasonal rains, i. e., on a factor which is absolutely indeterminate and undependable.

Approximate yield in maunds.

62. The import of cereals was, as compared with 1918-19, smaller by 19,302 mds. The prices of the staple articles of food-wheat, bajra, jowar, remained more or less stationary during the year, which was due to fairly good local yield.

Prices of food grain during the year under review.

63. The total of import showed a decrease of 12,736 maunds as compared with the figures for the year 1918-19. The fall was mainly attributable to smaller imports of grain.

Traffic Import.

64. The number of animals imported was, as compared with the preceding year, smaller by 40 head.

65. A reference to Appendix XXVII will go to show that there was a fall of 19,302 mds in the import of food-grains, while, on the other hand, the import of sugar and gur showed a rise of 1,324 mds that of dried fruits of 52 mds that of opium of 52 mds, that of oil of 662 mds., that of spices of 687 mds., that of tobacco of 256, that of dyes of 103, that of cloth of 56, that of bamboo baskets etc., of 84, that of stone of 1,249 and that of miscellaneous articles of 476 mds. The rise in the import of these articles was to a certain extent, due to celebration of marriages & performance of funeral rites.

66. The principal items of export are ghee, wool, hides, stone, clay, and grinding mills and camels, bullocks, sheep and goats. As compared with 1918-19 and the average for the past 20 years, the export of articles showed a fall of 9,063 and 18,229 mds. respectively. This was mainly attributable to a decrease of 8,340 mds. in the export of wool, owing to an abnormal fall in prices and of 1,392 in that of stone clay etc.

Export

The export of animals, however, was, as compared with the preceding year, and the average for the past 20 years, greater by 42,877 and 86,236 head respectively.

Transit.

68. The transit traffic showed a rise of 61 maunds only on the similar figures for the preceding year. It was however smaller by 4,287 maunds if compared with the average for the past twenty years.

69. The transit of animals showed a rise of 3,739 head when compared with the preceding year, but it was smaller by 3,678 head than the average for the last 20 years.

Total of Traffic.

70. The total of import, export and transit traffic showed a fall of 21,738 and of 74,976 maunds, respectively, if compared with the figures for the preceding year and the average for the last 20 years. As regards animals, the total traffic-import, export, transit-showed a rise of 46,576 and of 78,567 head if compared with the past year and the average for the last 20 years respectively.

Approximate value of imports and exports.

71. The approximate value of the import and export trade was Rs 24,27,832 and Rs. 23,02,456 respectively

72. Similar figures for the preceding year were 24,16,220 and 24,82,989 respectively. Thus if compared with the preceding year the value of the import trade was greater by 11,612, while the value of the export trade showed a fall of 1,80,533. The value of imports exceeded that of export by 1,25,376

73. The balance of trade at the close of the year under review, was, owing to larger import, against Jaisalmer.

Trade Routes.

74. Jaisalmer depends largely for most of the necessities of life on imports from outside. The bulk of the trade is with Sindh and the Punjab, and, to some extent, with the United Provinces, via Daharki. It is generally by this route, *i. e.*, via Daharki, that necessities of life are imported into the State.

75. The traffic with Marwar, Bikaner, and some other parts of Rajputana, such as Beawer, etc., and Gujerat and Bombay is generally via Barmer and Phalodi.

76. Camels are obtainable in fair numbers at Daharki but, on account of excessive heat, they do not as a rule, ply from the middle of April to the middle or end of July. They commence plying from August, but the traffic during the monsoon-August, September, and October, via Daharki is comparatively small. It is brisk during the cold season, *i. e.*, in November, December, January, February and to a certain extent in March.

77. The traffic via Barmer and Phalodi, is, on the other hand, brisk during the hot season-April, May, June and July *i. e.*, the period of its partial suspension with Sind and the Punjab via Daharki.

78. The transport of goods from Daharki to here, by road, takes about 15 to 20 days and nearly the same time is spent in ordering or arranging with the agents and transport by rail, so it takes about 5 or 6 weeks before the goods can reach here, and their distribution through retail merchants in the various Hakumats also takes time; for the State covers more than 16,000 square miles and the population, though sparse, is spread over that wide area. It will be seen how essential it is always to have a sufficient stock in hand of the necessities of life.

79. The goods that come via Barmer and Phalodi in Marwar take up less time in transport by road, as these stations are comparatively nearer than Daharki.

80. The following statement will show at a glance the principal articles of import and export and the quantities in which, and the places from and to which they were imported during the year under review.

Variation in the value of Traffic at different seasons: Traffic via Dharki.

The traffic via Barmer and Phalodi.

Time taken up in transport, distribution, etc., of goods by rail and road via Daharki.

Time taken up in transport, distribution, etc., of goods by rail and road via Barmer and Phalodi.

Principal articles of import and export.

Statement showing the Principal Articles of Import and Export and quantities in which and the places from and to which they were imported and exported during the year 1910-20.

No.	Articles.	IMPORT.					EXPORT.				
		Marwar.	Thar and Parker.	N. W. Sind and the Punjab.	Bikaner.	Total.	Marwar.	Thar and Parker.	N. W. Sind and the Punjab.	Bikaner.	Total.
1	Bajra and Jawar	12,648	2,255	87,230	2,251	104,382	67	...	3	115	185
2	Wheat	1,859	265	20,082	360	22,566	41	...	1	...	42
3	Gram	235	...	666	13	914
4	Mung and Moth	735	...	1,254	20	2,009
5	Rice	334	49	4,127	20	4,530
6	Sugar and Gurh	6,701	112	2,262	275	9,350
7	Dried Fruits	1,333	11	587	11	1,942

15	Stone, Clay and Grinding Mills.	158	...	1,161	27	1,346	708	...	1,765	...	2,473
	Total	27,201	2,829	119,314	3,069	152,413	6,768	171	7,484	829	15,252

81. From what has been said it will be seen that cessation of continuous, normal flow of imports would, for Jaisalmer, mean economic strangulation and would, if prolonged, jeopardise the very existence of the State.

Map showing the Principal Routes.

82. The principal trade routes are shown in the map below and the rates of tariff are given in the Appendix XXVI.

Route from here to Khanpur in Bahawalpur.

83. The Capital is situated almost in the centre of the State. The principal trade route from here to Khanpur in Bahawalpur is via Mohangarh, Nachna, and via Dewa and Buili. There is also a direct route to Bahawalpur from Bap via Nokh, but it is not used at present for transport of goods.

Routes to Daharki.

84. The routes to Daharki from the Capital are via Ramgarh and Tanot and via Khuiala. There is also a direct track to Khairpur via Ghotaru and Shahgarh, but it is little used now for transport of goods.

Route to Thar and Parkar.

85. There is also another route via Khabha and Mayajlar which leads to Gadro and Chhor in the Thar and Parkar,

Route to Ramsar and Ghagariyo.

86. The route via Lakha leads to Ramsar and Ghagariyo stations between Barmer and Gadro.

Routes to Marwar and Bikaner.

87. The route to Barmer goes via Devikot and Binjhorai; and that to Phalodi, via Pokaran and Bap and that to Bikaner, via Bap and Nokh.

Imports from Sind and the Punjab, Thar and Parkar, Marwar and Bikaner.

88. The total quantity of goods imported from Sind and the Punjab via Daharki and Khanpur was 1,19,902 maunds, that from Thar and Parkar was 2,850, that from and via Marwar was 28,941 and that from Bikaner was 3,095 maunds.

Exports to Sind and the Punjab, Thar and Parkar, Marwar and Bikaner.

89. The exports via Daharki were 7,861 maunds, those to and via Marwar were 7,482 and those to Bikaner 956 and those to Thar and Parkar 172 maunds.

Industrial enterprise.

90. There is very little of industrial enterprise in the State. The use of machinery is unknown. Among the chief manufactures of the State may be noted country cloth, woolen blankets which very much resemble English homespuns-camel-hair carpets, and rugs and goat-hair bags all woven by hand-loom. Camel-saddles and mill-stones are also manufactured and exported. The stone work they turn out here is unique in design and beautiful to look at; but the prices charged are, owing to lack of competition, very heavy, and so very little of it is exported.

State grass reserves.

91. The State maintains reserves of grass in Nagarkantha, Dewa and Khabha Hakumats. As regards storage of grass by the State, the balance from 1918-19 was, as said in the last report, 13,530 maunds, to which 15,677 maunds were added in the year review. The total quantity was thus raised to 29,207 maunds, deducting wherefrom 12,287 maunds, the quantity consumed, the balance at the end of the year was 16,920 maunds.

Pasturage and condition of agricultural stock.

92. There are extensive grazing grounds in Jaisalmer, and the condition of the agricultural stock remained good throughout the year.

Migration.

93. As regards the necessity for periodic migration and the purposes they serve, a reference is invited to para 57. There was no abnormal immigration or emigration during the year under review.

94. The total expenditure under Public Works Department was 22,653 rupees against 19,781 rupees in the preceding year. Public Works Department.
95. The contract for the sale of country liquor was given to distillers for Rs. 2,151. Excise.
96. There is one Government Post Office in the State which is situated at the Capital. Post Office.
97. No minting operations were undertaken during the year under review. Mint.

CHAPTER V.

98. The receipts and disbursements of the State are both in Akheshahi and Kaldar. The average rate of exchange between the two currencies was, for the year under review, Rs. 108/10/- Akheshahi equal to Rs. 100 Kaldar, and the financial statement, Appendix XXII, has been worked out according to this rate. Revenue and finance.
99. The ordinary receipts for the year were Rs. 2,72,344 against Rs. 2,27,726 in 1918-19. The increase of Rs. 44,618 was mainly attributable to a rise of Rs. 28,513 and Rs. 9,046 under heads, Customs and Land Revenue, respectively. This was due to comparatively better rains in 1918-19 on which the harvests and the traffic of the year depended. Ordinary receipts.
100. The ordinary expenses were Rs. 2,16,978, they were greater by Rs. 33,654 as compared with similar figures for the preceding year. This was mainly due to a rise under heads Hakumats, Public Works and Stables, and Zanana Sirdars. Ordinary expenses.
101. The ordinary receipts exceeded ordinary expenditure by Rs. 55,366.
102. The extraordinary income of the State was Rs. 90,490 against Rs. 31,236 in 1918-19. The rise was, mainly under heads deposits and recovery of advances. Extraordinary income.
103. The extraordinary expenses were Rs. 1,69,333 against Rs. 54,463 in 1918-19. The main items, which contributed to this increase, were Refund of Deposits; Contribution towards War, and expenses in connection with the celebration of the marriage of His Highness at Bundi. Extraordinary expenses.
104. The total of ordinary and extraordinary receipts was Rs. 3,62,834 against Rs. 2,58,962 and that of expenditure was Rs. 3,86,311 against Rs. 2,42,787 in 1918-19, or in other words, if compared with the preceding year, the totals of receipts and expenditure both increased, during the year under review, by Rs. 1,03,872 and Rs. 1,43,534. The total of disbursements was greater than that of receipts by Rs. 23,927. The closing balance was, therefore, less than the opening balance, by that amount. Total of ordinary and extraordinary receipts and expenses.
105. As the State has to incur, at times, expenses which could not be foreseen or provided for in the budget, it is essential to maintain, as far as possible, a decent balance in hand.

CHAPTER VI.

106. There is one Hospital and Dispensary in the State. It is situated at the Capital.

Patients treated.

107. The total number of patients who sought medical relief during the course of the year was 4,500, against 5,658, in the preceding year.

108. The figures are compared below:—

YEAR 1919-20.			YEAR 1918-19.		
Out-door.	In-door.	Total	Out-door.	In-door.	Total.
4,479	21	4,500	5,648	12	5,648

Expenditure.

109. The total expenditure in connection with the institution, including vaccination, was Rs. 2,628/6/9 against Rs. 3,334/- in the preceding year.

Births and deaths.

110. Registration of births and deaths in the town is accurate, as there is a separate establishment for the purpose, and the work is supervised by the Mehkma Khas. In the Districts, however, where the villages are few and far between, it is difficult to attain the same degree of accuracy.

111. The number of births registered during the year was 1,039 and that of the deaths was 762. Similar figures for 1918-19 were 1,198 and 7,691.

CHAPTER VII.

Schools.

112. The State maintains two public schools. There is also a primary school at Bap to which grant-in-aid is given by the State. There are, besides these two other private schools.

113. The total number of boys on the rolls of above institutions was 241 against 30 in the preceding year.

Result of examination.

114. The annual examination of the State School was held in May. Out of 15 students who appeared, 11 got through and were promoted to higher standard.

115. Maharaj Kumar Shri Girdhar Singhji Sahib prosecuted his studies at Jaisalmer during the year,

CHAPTER VIII.

116. Out of 160 marriages (150 among Rajputs and 10 among Charans) there were only 5 cases of infringement of Sabha rules

Wallerkrit
Rajputra Hitkarini
Sabha

117. The number of funerals was 90. There were 5 instances of infringement of rules.

118. Rewards are offered by the Darbar for the destruction of mad dogs, wolves, snakes, Piwnas a species of snake whose breath is said to be poisonous. A number of these animals and reptiles were destroyed during the year under review.

Destruction of
poisonous animals.

119. The best thanks of the Darbar were due to L. W. Reynolds, Esquire, I. C. S., C. I. E., Resident, Western Rajputana States, for his unvarying kindness and courtesy, his valuable suggestions and advice, and for his prompt and hearty support to every measure tending to the welfare of the State and its people.

Resident, Western
Rajputana States

M. R. SAPAT,

DEWAN, JAISALMER STATE.

APPENDICES.
